Job Description: Java Developer

We are seeking an experienced Java developer to join our team. The ideal candidate should have at least 5 years of experience in Java development, with a focus on developing and maintaining enterprise-level applications. The candidate should also possess excellent communication skills and a collaborative mindset, with an ability to work in a fast-paced, dynamic team environment.

Responsibilities:

Develop, test, and maintain Java-based applications using industry-standard frameworks and technologies.

Collaborate with cross-functional teams to identify and address business requirements and technical issues.

Participate in design and architecture discussions to ensure the development of scalable, efficient, and secure applications.

Write clean, efficient, and well-documented code that adheres to industry best practices and standards.

Participate in code reviews, testing, and deployment activities as required.

Continuously improve your knowledge and skills in Java development, including emerging technologies and frameworks.

Communicate with team members and stakeholders to understand business requirements and deliver solutions that meet or exceed expectations.

Requirements:

Bachelor's or Master's degree in Computer Science, Engineering, or related field.

At least 5 years of experience in Java development, with strong proficiency in Java, Spring, and Hibernate frameworks.

Experience with web development technologies such as HTML, CSS, and JavaScript.

Knowledge of database technologies such as Oracle, MySQL, or SQL Server.

Experience with Agile development methodologies.

Strong understanding of software development best practices, including object-oriented design principles, testing, and version control systems such as Git.

Excellent written and verbal communication skills.

Strong problem-solving and critical-thinking skills.

Ability to work independently and collaboratively in a team environment.

If you are passionate about Java development and have a desire to work with cutting-edge technologies and frameworks, we encourage you to apply. We offer a competitive salary, comprehensive benefits package, and a dynamic work environment with opportunities for growth and advancement.
